The credit card charge for this transaction will show as “EZ School Apps” on the credit card statement. If you dispute this credit card transaction the “charge back” fee of \$15 imposed by the bank will be billed to the school. The payment may show as recurring on your bill but you can ignore this.

IMPORTANT: If you have multiple students, please add funds for each student specifically in separate transactions.

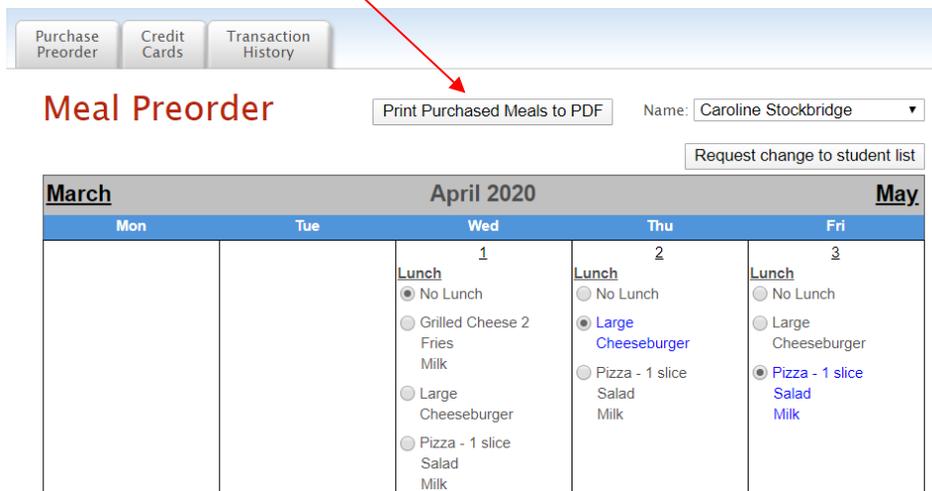

Example: If you want to add \$100 to your family's lunch account and have two students, choose the first student and add \$50 to their account. Once the transaction is completed, repeat the same process under the second student's account to add the other \$50. This requires two separate transactions onto a credit/debit card.

The credit card charge for these transactions will show as “EZ School Apps”, “EZ School Lunch” or “EZ School Payment” on your credit card statement. If you dispute this transaction a “chargeback” fee of \$15 may be imposed by the bank to your school since they are the recipient of the funds.

If your credit card is declined, we recommend trying a different card or calling your credit card company to find out more.

If you find yourself in need of support, you can use the ‘Contact Support’ link at the top-right corner or the “Contact Support” link on the login page. This will send a support request to the school since we only provide the software and are not authorized to make any changes without the direct request from one of the administrators. They should be able to provide you with anything you may need.
