All students will need a set of basic school supplies at home for projects that extend learning. We recommend access to paper, markers or crayons, glue sticks, scissors, pencils, and pens.

It is recommended all students have a reuseable/refillable water bottle.

Medical Supplies such as antibacterial wipes, tissues and hand sanitizer have in years past been included in the supply list. This year to assist our families and to support the health of our students, these items have been generously donated by our Premier Partners.
